

# Natural Longevity

## *100% Pure, Undiluted Essential Oils*

*T*rue wellness can be found when harmony exists between the mind, body, and spirit. This synergistic relationship has driven how our products are formulated from the very beginning.

Our Essential Oils products will continue our tradition of delivering exceptional result producing products at very realistic prices.

Used correctly, Essential Oils can be used neat, as blends, or as infusions to bring wellness to your life.

To obtain the best possible experience from our Essential Oil products, please follow these simple directions for use.

- 1) **DO NOT USE UNDILUTED OILS DIRECTLY ON THE SKIN.** Our Essential Oils are so pure that they MUST be used with Carrier Oil. We recommend a dilution of 5-10 drops of pure Essential Oils per Tablespoon (14ml) of Carrier Oil for skin application.
- 2) Do not ingest the diluted oils unless directed to do so by a fully qualified, licensed health care provider and NEVER ingest undiluted oils.
- 3) Keep out of the reach of children. Due to their appealing odor, many Essential Oils are particularly attractive to children. Treat and store them with the same caution you would use for prescription pharmaceutical drugs.
- 4) Storage. Do not store your essential oils in direct sunlight or in extremely hot places for extended periods of time.
- 5) Blending. If you are mixing your own blends, do not store them in plastic or clear glass bottles. Instead use amber or dark colored (blue, green or black) glass bottles as these will protect the oils from ultraviolet light.
- 6) Refrigeration. While Essential Oils do not need to be refrigerated, we recommend that you refrigerate the carrier oils after opening.

# HOW TO USE ESSENTIAL OILS

METHOD AND WAYS TO USE	SUGGESTED AMOUNT	DIRECTIONS
Diffusers	3 to 5 drops	Mix your favorite oils with water in an Ultrasonic Diffuser
Massage Oil	Mix 5 to 10 drops per Tablespoon of carrier oil and use externally on body	Use Grapeseed or Sweet Almond carrier oils. Mix a Tablespoon size in palm of hand and add oil of your choice
Baths	Add 4 to 8 drops	Run bath water. Add essential oils when ready to get in tub. Soak for minimum of 8 minutes. Close doors.
Room Spray	5 to 10 drops per cup of water	Using an empty spray bottle, fill partway with water and add several of your favorite oils to run any room into an aromatherapy experience. Shake well before each use and spray in air, on curtains and carpets, but not on wood.
Cotton Ball, tissue	2 to 3 drops	Add oils to cotton ball or tissue and keep handy, or on the collar of shirt. Use often.
Shower	5 to 10 drops	Spray entire room before showering. Also, while showering put oils on washcloth and rub on body and breath deeply.
Perfume	To your liking	Use in existing perfume to enhance or use as a massage oil. Experiment!
Humidifiers	4 to 12 drops	Add as you would add anything to a humidifier.
Boiling bowl of water	3 to 5 drops	Add boiling water to a bowl. Add oils. Close doors and windows and let aroma fill the room. You can also put a towel over your head and breath.
Sauna/Jacuzzi	5 to 10 drops per person	Mix with water and use as normal in a sauna or Jacuzzi.
Foot or Hand Bath	3 to 8 drops	Soak your feet or hands in a bowl of warm water with the essential oils for 8 to 10 minutes on hands and 20 minutes on feet.
Candles	2 to 5 drops	Use any candle as you normally would. Once the wax has begun to melt add the oils to the melted wax.
